- LinkedIn: [Aymane Chadni](#)

Profile

Fourth-year computer engineering student, specializing in Artificial Intelligence and Data Science. Passionate about Machine Learning and the development of intelligent systems. Currently looking for a PFA internship starting from July to contribute to high-value projects.

Education

Moroccan School of Engineering Sciences (EMSI), Tangier

2022 – Present

Computer Engineering & Networks, specialized in Artificial Intelligence and Data Science.

International Baccalaureate in Physical Sciences, French Option

2021-2022

School: Yanboe Annour 2

Internship

Application Internship – Smart Automation Technologies, Tangier

July – September 2025

Development of a web application for managing football data.

- System modeling using UML
- Work using Agile methodology, Scrum

Technologies: Angular, REST API, HTML, CSS, TypeScript.

Academic Projects

Intelligent E-Commerce – End-of-Year Project

March – June 2026

Design of an intelligent e-commerce platform integrating an end-to-end Big Data pipeline, a recommendation system, and fraud detection using Deep Learning. Implementation of a Data Warehouse with a BI dashboard and a multi-agent architecture to automate decision-making.

Technologies: TensorFlow, Keras, Fraud Detection, Python, Pandas, PySpark, ETL, Data Lake, Data Warehouse, Power BI, Docker, Distributed Architecture, Microservices, Multi-Agent System.

Telemedicine Platform with AI – End-of-Year Project

March – May 2025

Web telemedicine platform integrating AI for skin disease detection.

- Design and training of a CNN model using TensorFlow for medical image classification
- Deployment of the model through a REST API using Flask
- Development of a web interface for appointment booking
- Integration of an intelligent medical chatbot

Technologies: Python, TensorFlow, Flask, Laravel, MySQL, JavaScript, Tailwind CSS.

Technical Skills

- **IA & Machine Learning :** Machine Learning , Deep Learning (CNN) , Systèmes multi-agents, IA distribuée , TensorFlow, Keras .
- **Big Data :** Hadoop, Spark , ETL .
- **Langages :** Python, Java, C, C++, PHP, JavaScript
- **Frameworks & Outils Web :** Angular, Node.js, Express.js, Laravel, Django, Bootstrap, Tailwind CSS, HTML, CSS
- **Bases de données :** SQL(MySQL, Oracle, SQL Server), NoSQL(MongoDB, Neo4j, Cassandra, Redis).
- **Modélisation & Conception :** UML, Merise, PowerAMC .
- **Environnements de développement :** Eclipse, PyCharm, Visual Studio Code
- **Architectures :** MVC

CERTIFICATIONS

- **Oracle Database 19c Admin Professional Credential – Oracle – In progress**
- **Introduction to Machine Learning – Duke University**

Languages

- **French:** Intermediate level
- **English:** Intermediate level

Personal Qualities

- Communication
- Team spirit
- Rigorous
